Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Claims 1-14 in Paper No. 8 is acknowledged.
2. Claims 15-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the subject matter of claims 5 and 12 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3641

6. Claims 1 and 8 claims a butt stock that has the ability to fit over a receiver having certain features. However, the butt stock must positively recite structural features so that a determination of patentability can be made in accordance with 35 USC 112 (1) and (2).

7. Certain claims (e.g. claim 2) make reference to the term "it". This makes the claims indefinite since it is not understood what "it" actually refers to.

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1, 2, 8 and 9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 3348328 issued to Roy. As applicant's invention can best be understood in view of the above rejections, Roy discloses a fixed style butt stock 10 that *can be* secured upon a receiver as recited by the applicant, and further includes means for securing as shown in Figs. 1-3.

Claim Rejections - 35 USC § 103

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. Claims 3-7 and 10-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Roy in view of U.S. Patent No. 3618248 issued to Into. Roy discloses a butt stock as disclosed above. However, Roy does not disclose or claims the storage cavity features of the butt stock nor the features of the butt plate as claimed by the applicant. However, such features are well known in the firearm art. For example, Into discloses a butt stock with a cavity 34, butt plate 12 having a hole and a door 58 for covering said hole. At the time of the invention, one of ordinary skill in the art would have found it obvious to provide the butt stock of Roy with applicant's claimed features of Claims 3-7 and 10-14. The suggestion/motivation for doing so would have been to allow for the transportation and stowage of cleaning/operating materials.

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents listed on form PTO-892 are cited as of interest to show similar butt stocks.
